PROFILE

Software Developer with 2+ years of experience building and maintaining web and mobile applications across client-facing projects. Experienced in frontend and mobile development, backend workflows, third-party API integrations, and complex business logic. Strong experience working directly with clients to gather requirements, communicate project updates, troubleshoot issues, and deliver production-ready solutions. Hands-on experience with React, React Native, Flutter, JavaScript, Node.js, MongoDB, Bubble, and FlutterFlow.

EDUCATION

Bachelor of Science in Computer Science, FAST NUCES, Lahore 2020 – 2024

WORK EXPERIENCE

Software Developer, Chakor 2024 – Present

- Developed and maintained production web and mobile applications, implementing complex business logic, backend workflows, and third-party integrations
- Worked directly with clients to gather requirements, clarify business needs, provide technical updates, and deliver solutions aligned with project requirements
- Collaborated with clients and internal teams throughout the development lifecycle, from requirement analysis and feature development to testing and delivery
- Built reusable frontend components and custom integrations using JavaScript
- Integrated third-party services including Stripe, Gemini, OpenAI, Xero, and Plooto
- Contributed to a cross-platform mobile application using Flutter, published on the Apple App Store and Google Play Store
- Integrated fitness and health platforms including Strava, Garmin, and Apple HealthKit

Software Engineer Intern, Qwerty Experts 2023

- Developed mobile applications using React Native
- Implemented backend functionality using Node.js and MongoDB
- Worked with real user data and client feedback to improve application functionality
- Collaborated with team leads to implement features, troubleshoot issues, and deliver application updates

PROJECTS

Shaping Homes (GitHub)

- Developed a cross-platform mobile application using React Native
- Built backend services using Node.js and Express.js
- Designed and consumed RESTful APIs
- Integrated AI-driven features for personalized user experiences

Athlete (Website) (App Store) (Google Play)

- Contributed to a cross-platform fitness application using Flutter
- Integrated Strava, Garmin, and Apple HealthKit APIs
- Implemented features for VO₂ max, endurance, and functional strength tracking
- Deployed and maintained the application on the Apple App Store and Google Play Store

Health Wallet (Live)

- Developed a digital health wallet system with automated quarterly allocations
- Implemented backend business logic and scheduled background jobs
- Ensured accurate financial workflows and automated annual resets

AnchorShareLock (Live)

- Built a role-based locker rental platform supporting Admin, Customer, and Franchisee workflows
- Implemented subscription billing and payment workflows using Stripe
- Automated revenue sharing and platform service fees for transactions

SKILLS AND TECHNOLOGIES

Programming Languages	JavaScript, Dart, Python, C++
Frontend & Mobile	React.js, React Native, Flutter, HTML, CSS
Backend & Database	Node.js, Express.js, MongoDB, REST APIs
Low-Code Development	Bubble.io, FlutterFlow
APIs & Integrations	Stripe, Xero, Plooto, OpenAI API, Gemini, Apple HealthKit, Strava API, Garmin API
Tools	Git, GitHub, Firebase, VS Code, Android Studio
Professional	Client Communication, Requirements Gathering, Stakeholder Collaboration, Problem Solving
